

**FONASBA**

**FONASBA 2016 CONTAINER  
WEIGHING SURVEY**

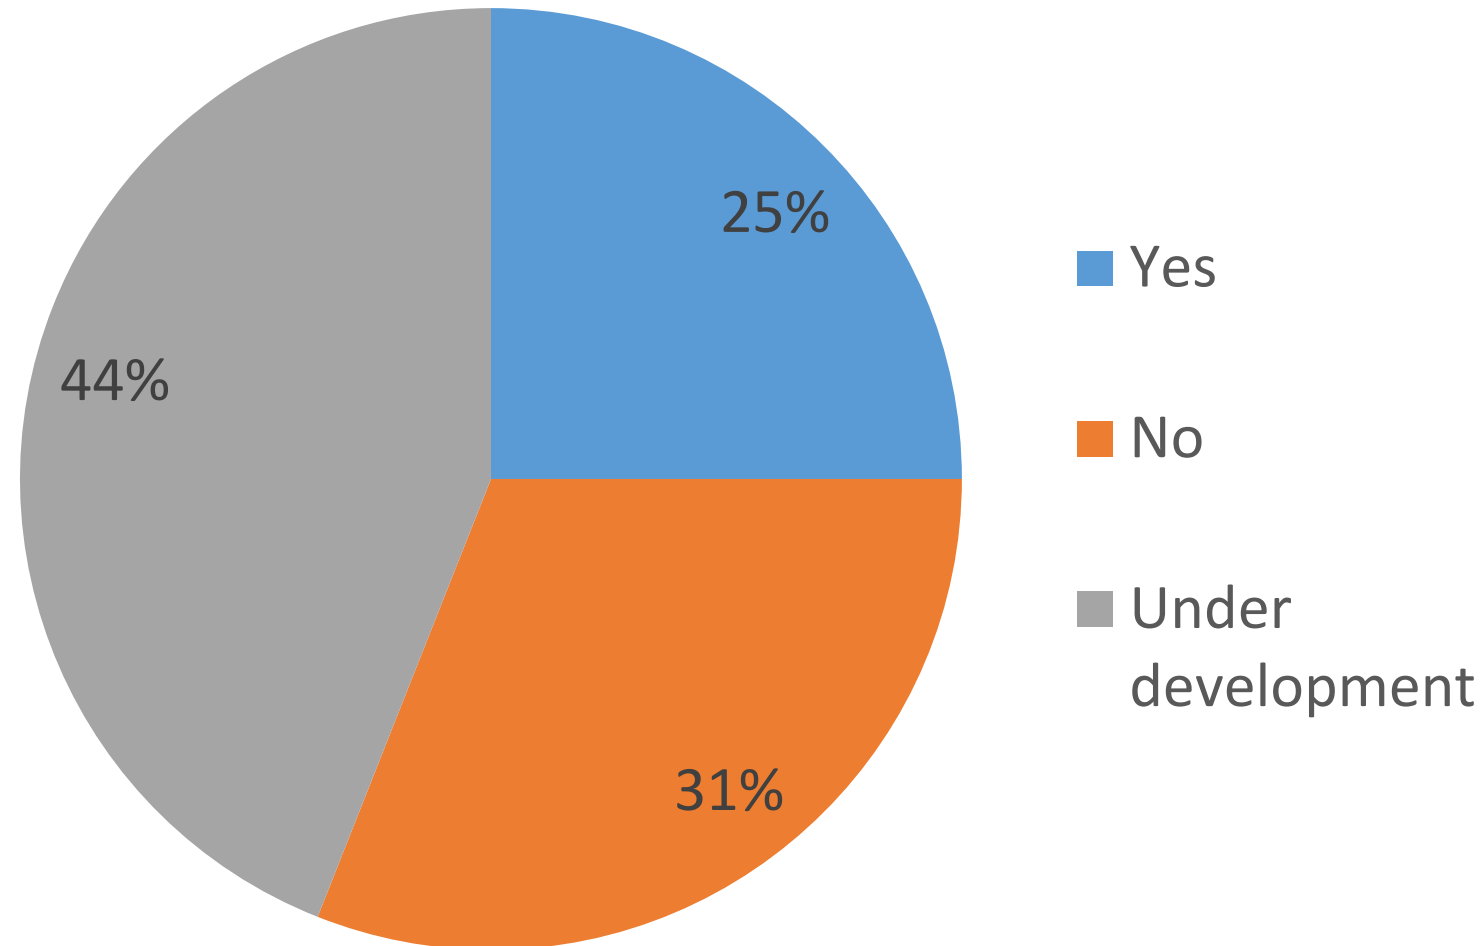

**SUMMARY OF RESULTS**

**MARCH 2016**

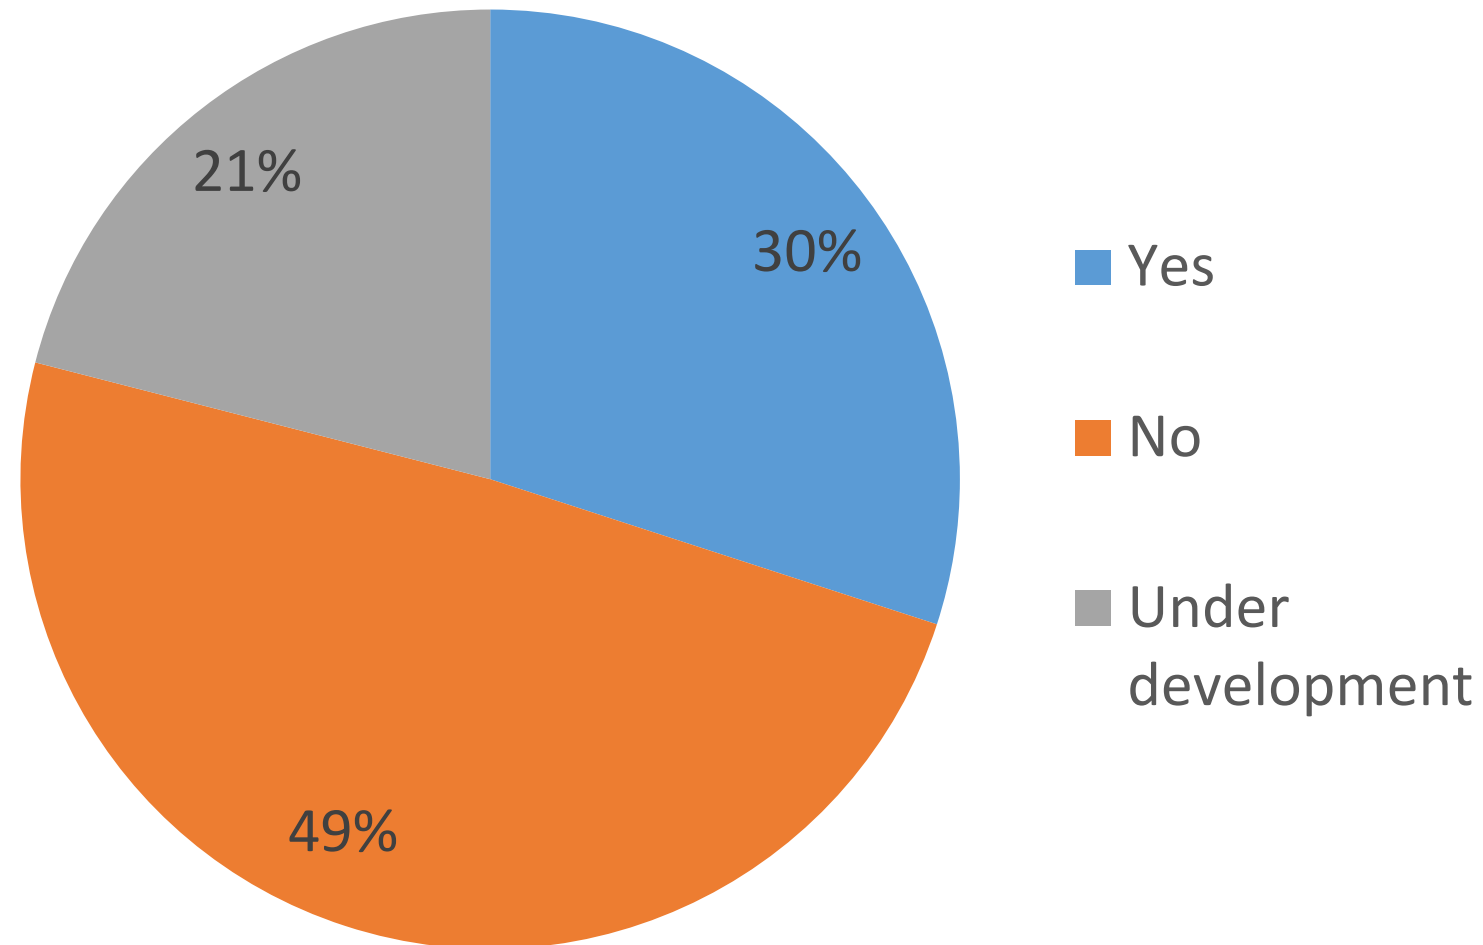

# Question 1: Who is 'designated authority' for implementation in your country?

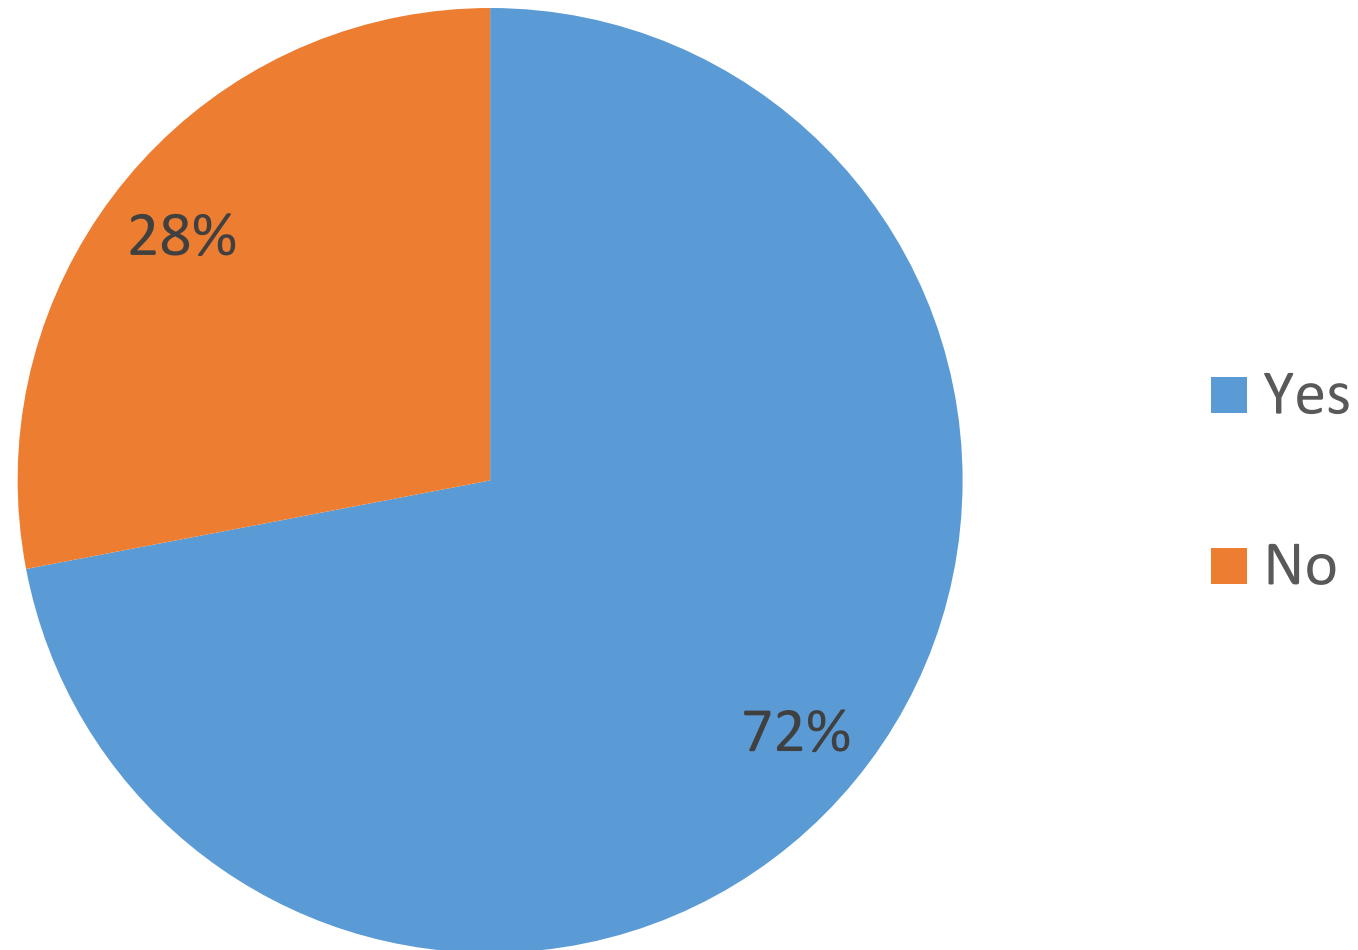

## Question 2: Have implementation plans already been put in place?

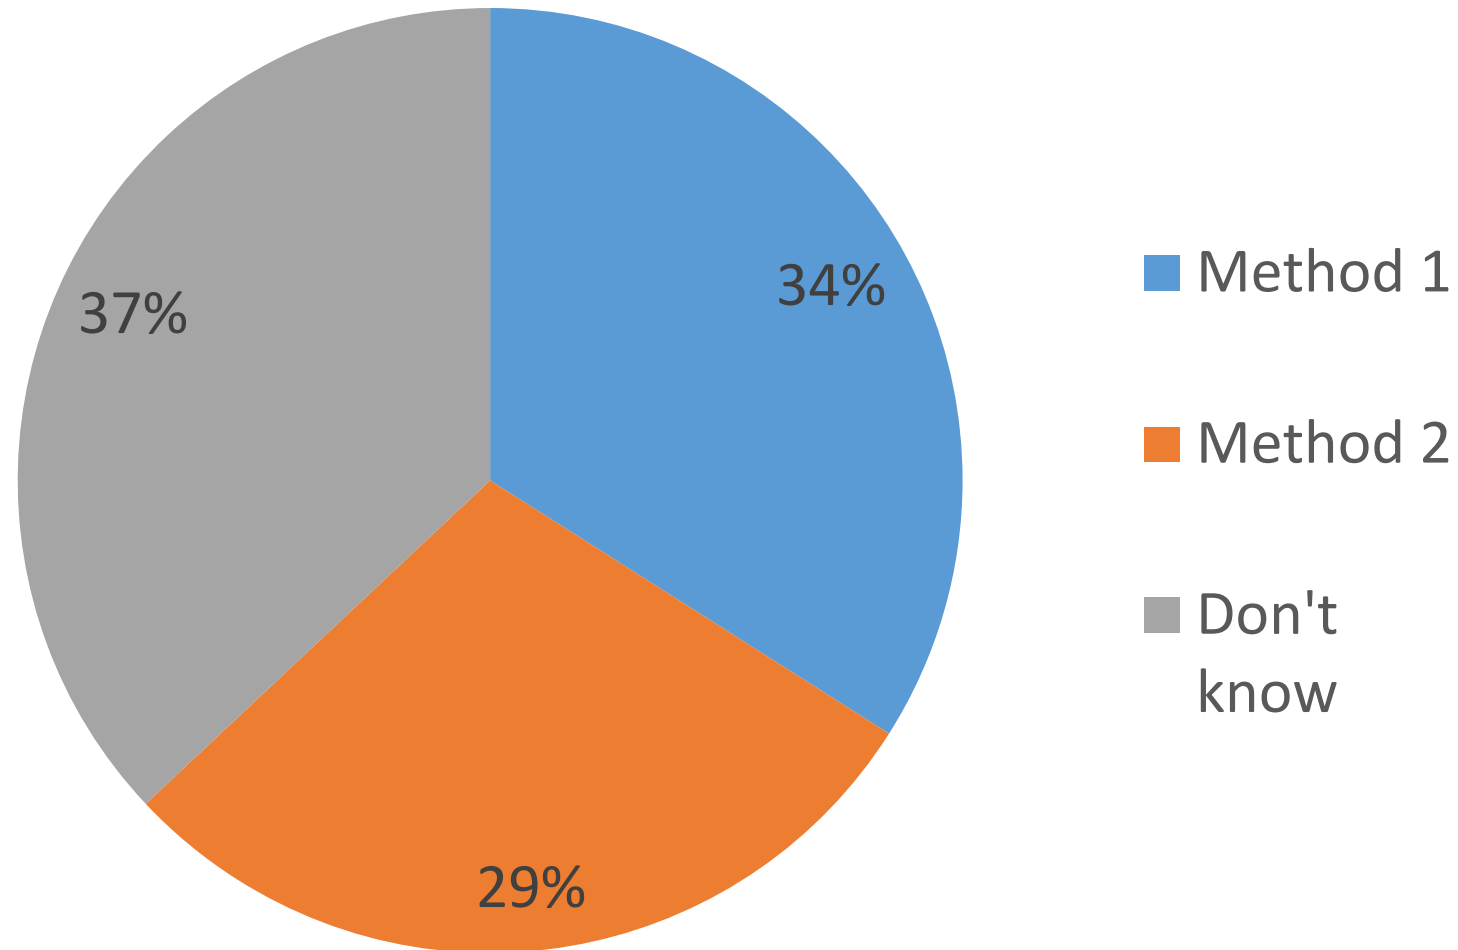

# Question 3: Has your 'designated authority' issued any guidance instructions?

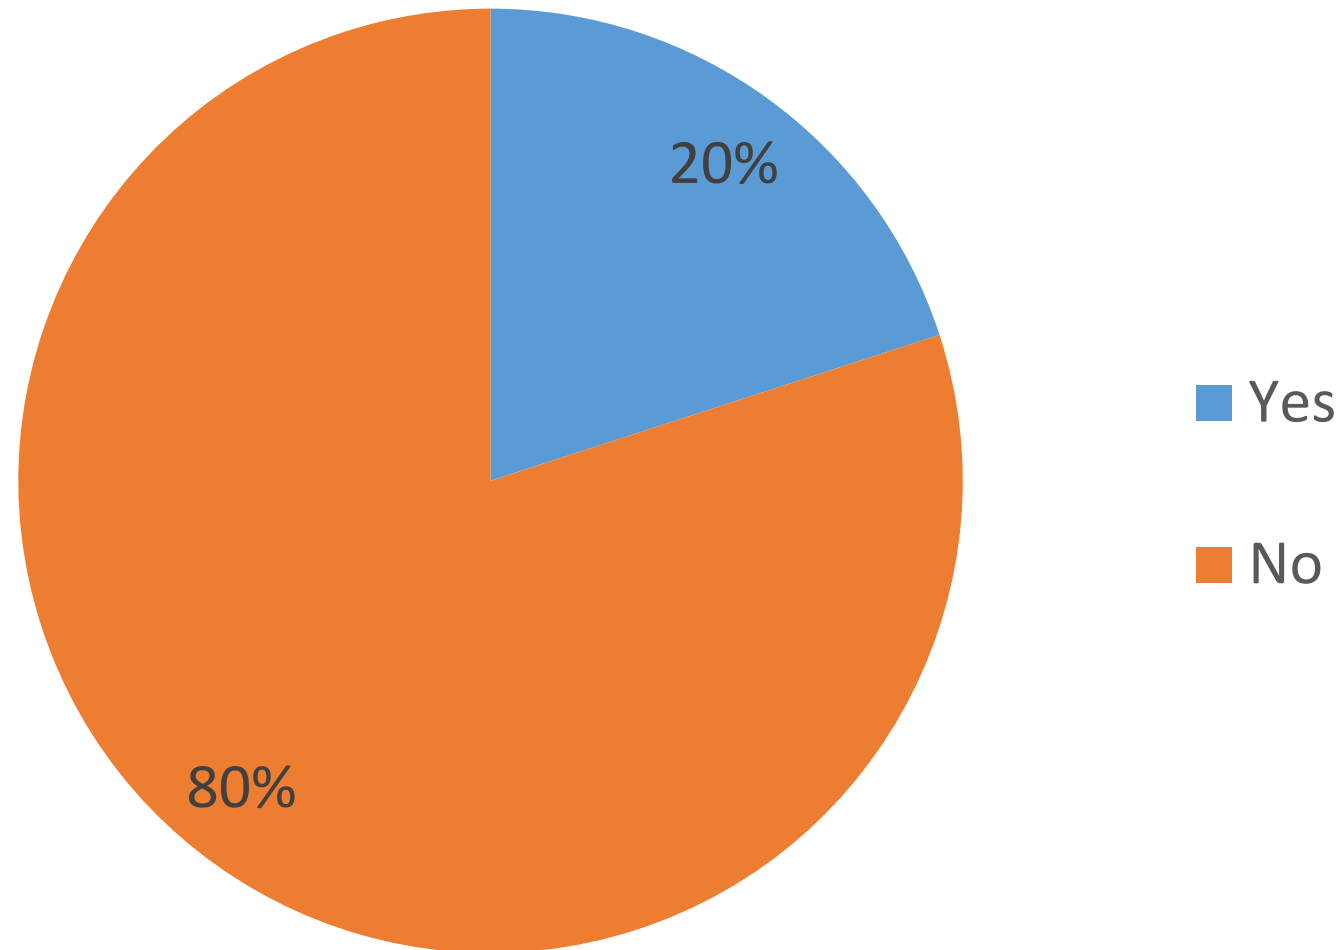

# Question 5: Has your 'designated authority' defined who the 'shipper' is?

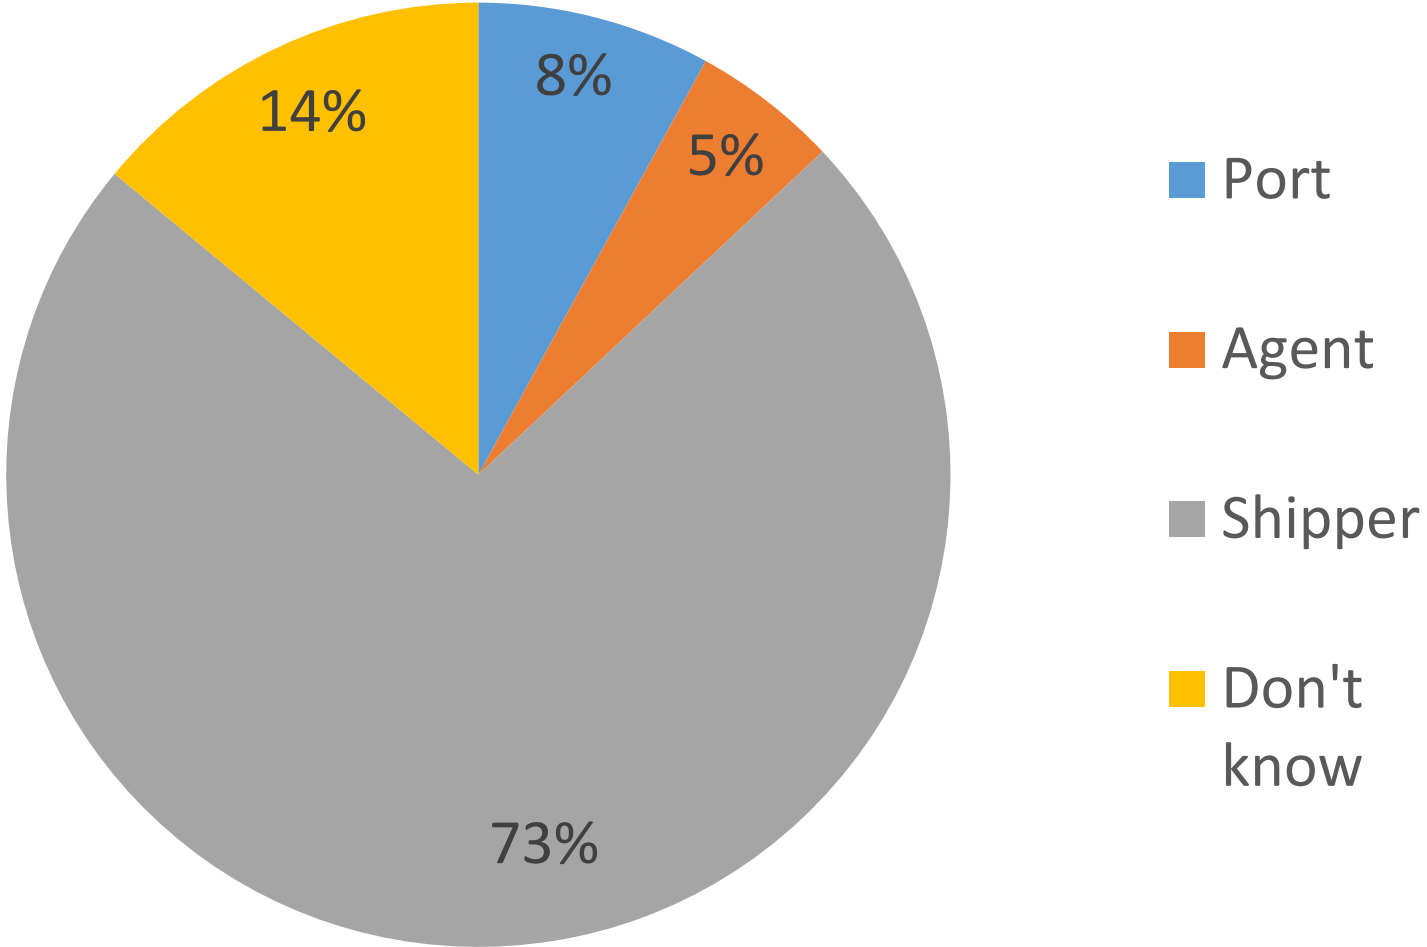

# Question 6: What proportion of shippers do you expect to use Method 1 or Method 2 for determining actual weight?

# Question 8: Are all containers currently weighed?

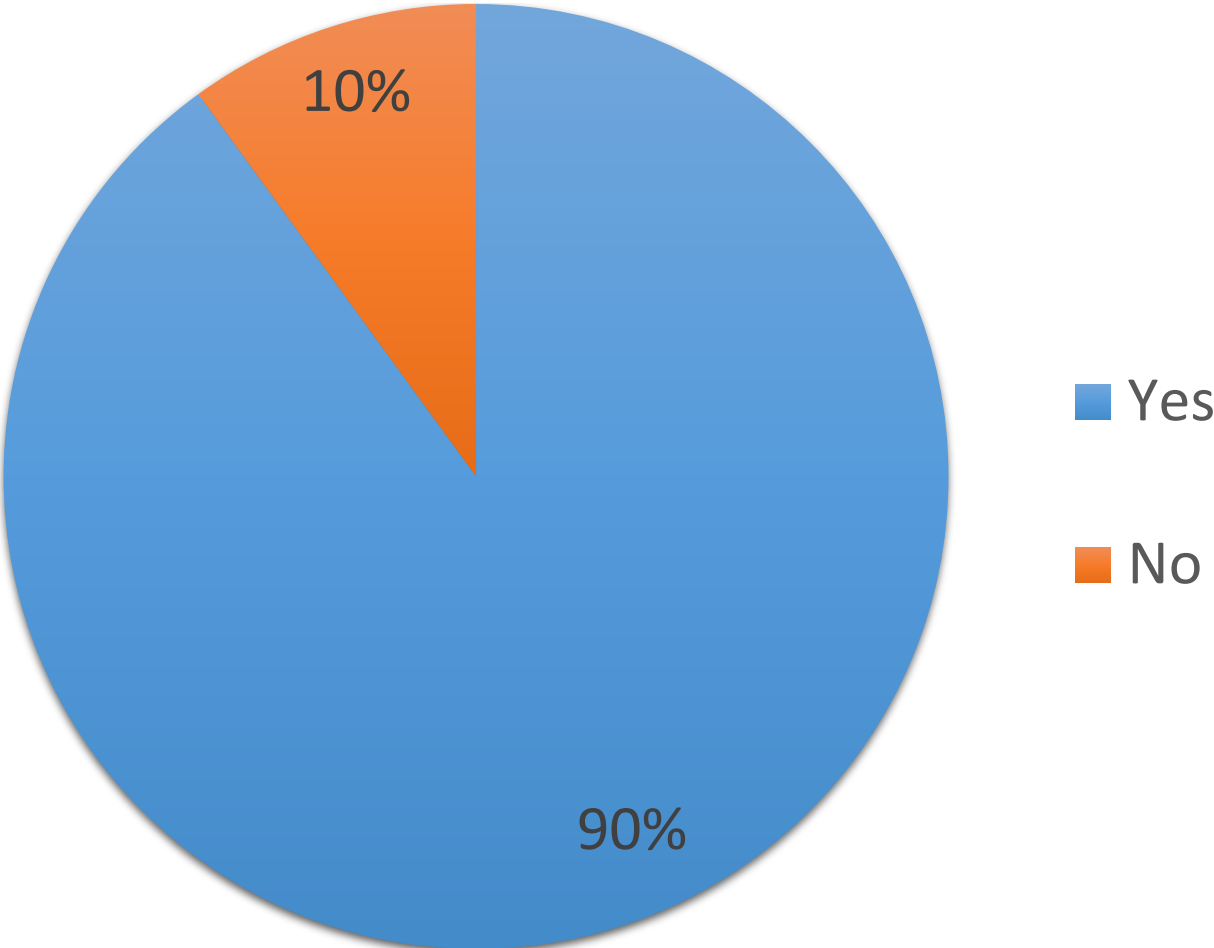

# Question 11: Who is currently responsible for weighing?

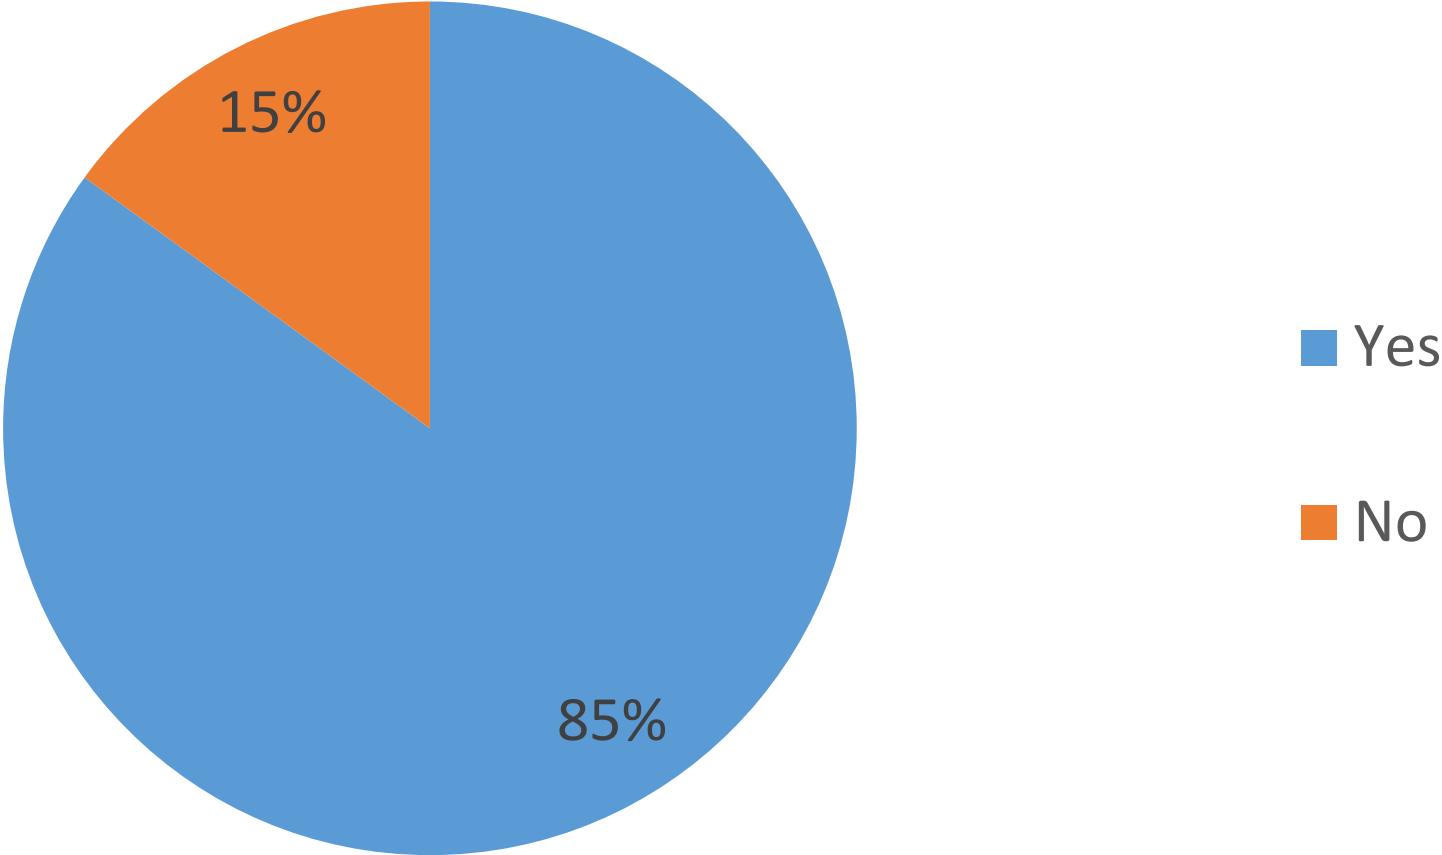

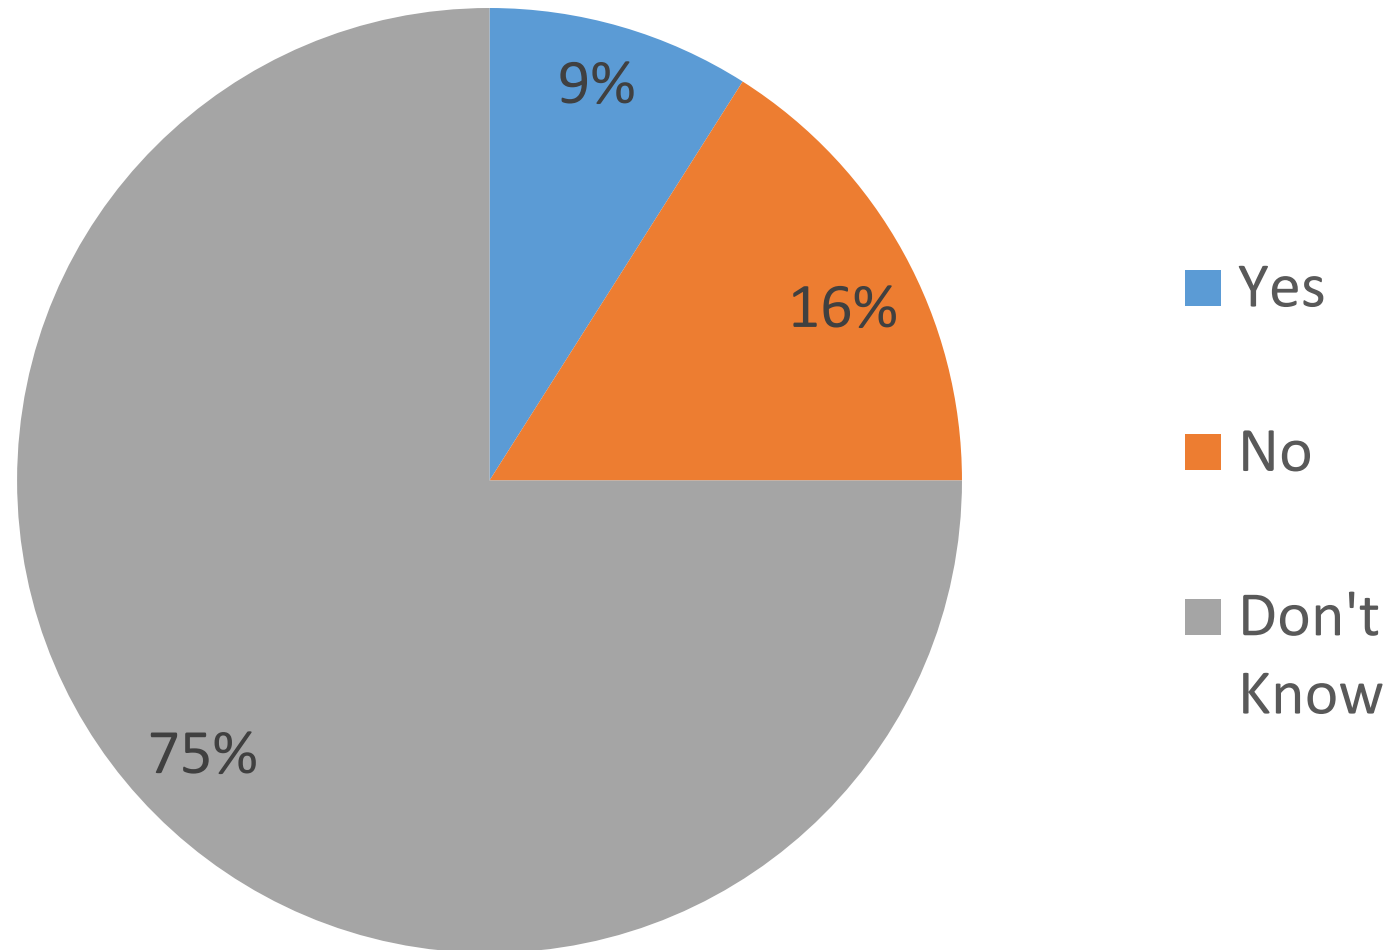

# Question 12: Are weighbridges currently certified by the authorities?

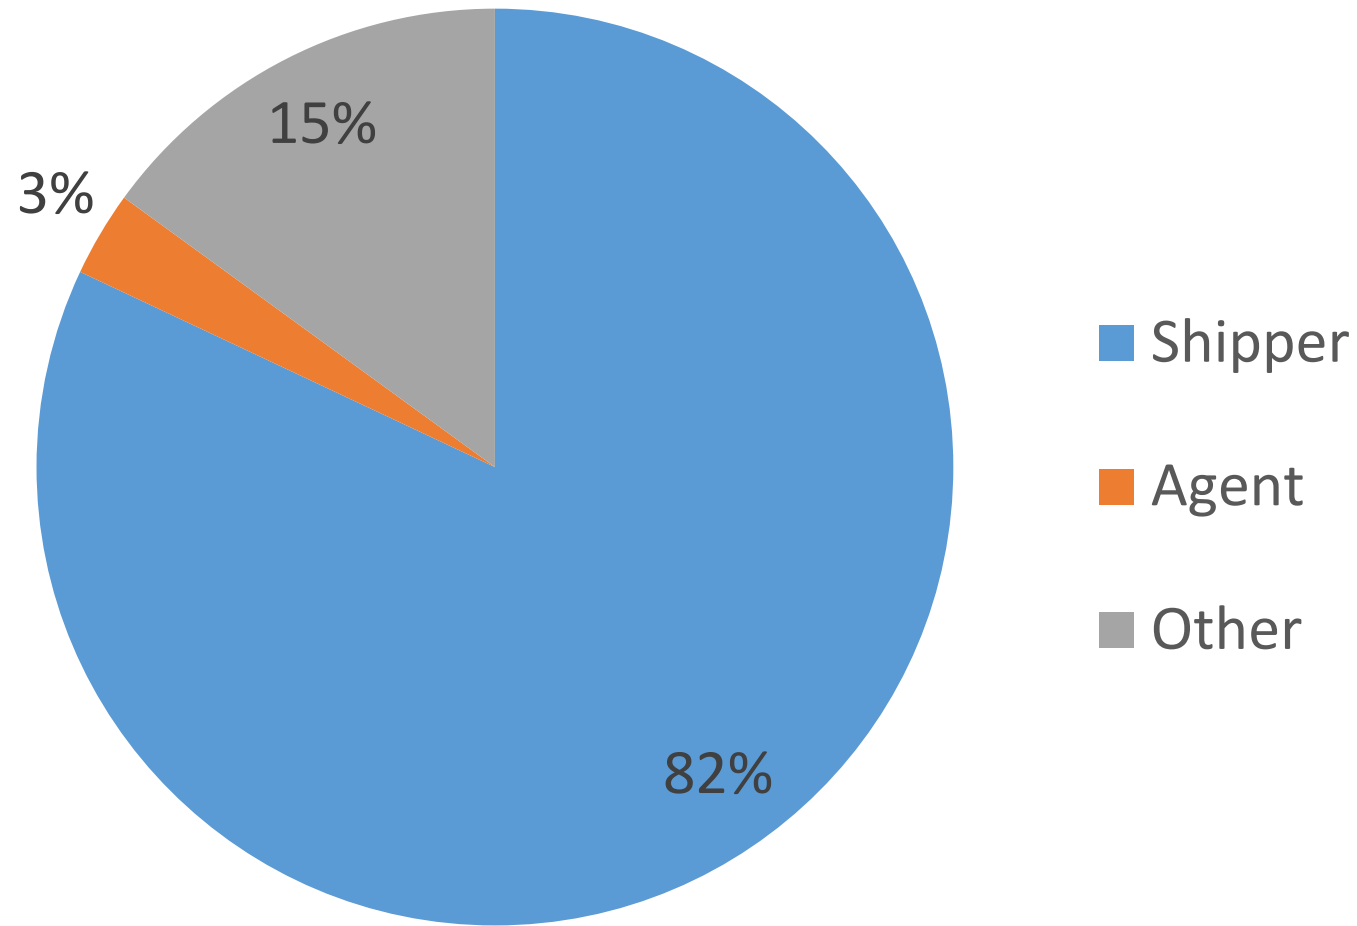

Question 13: Does the weighbridge currently issue a certificate?

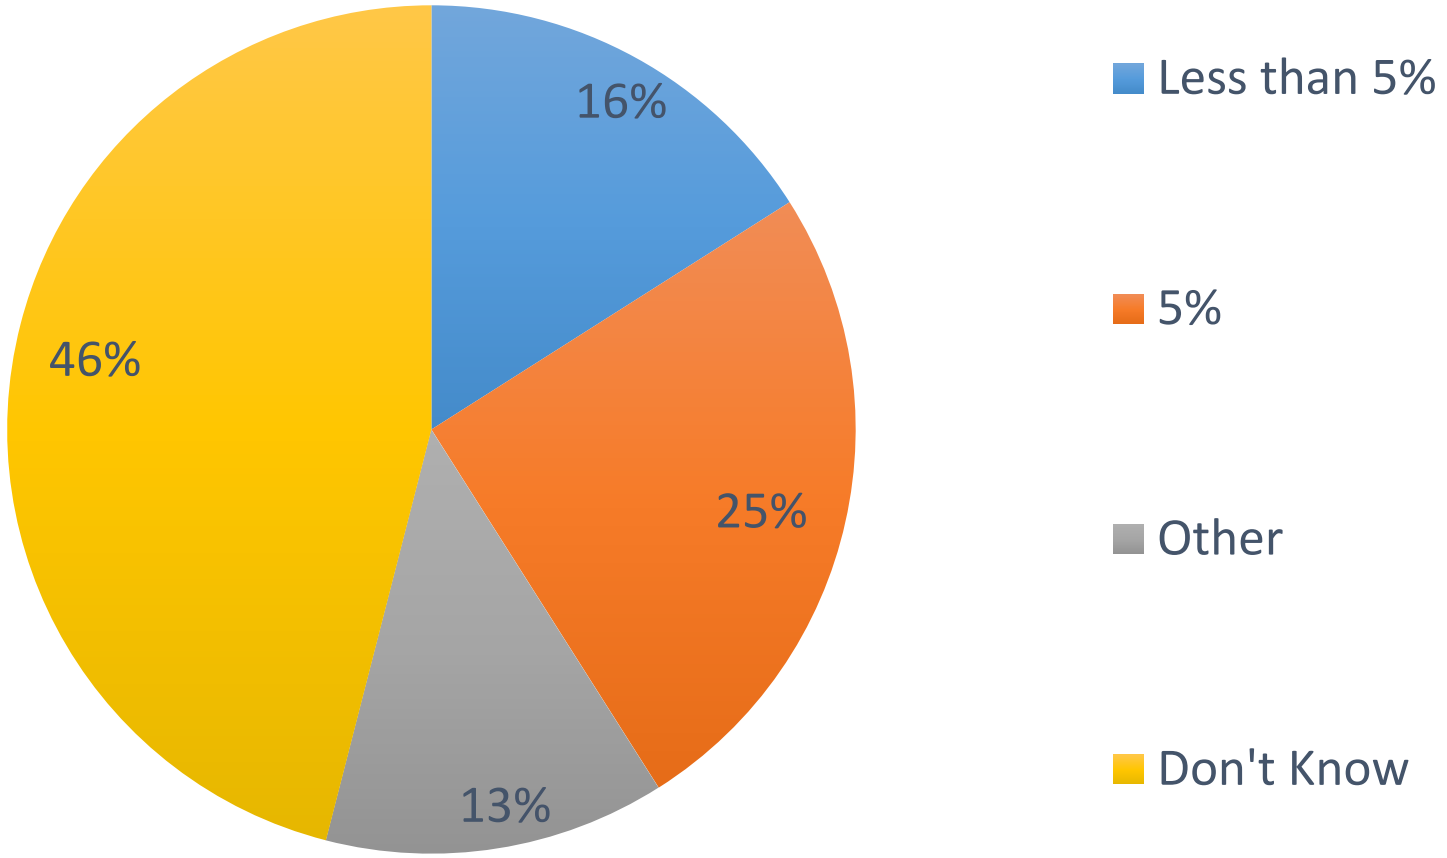

# Question 14: Will your 'designated authority' charge for issuing an approval certificate for using Method 2?

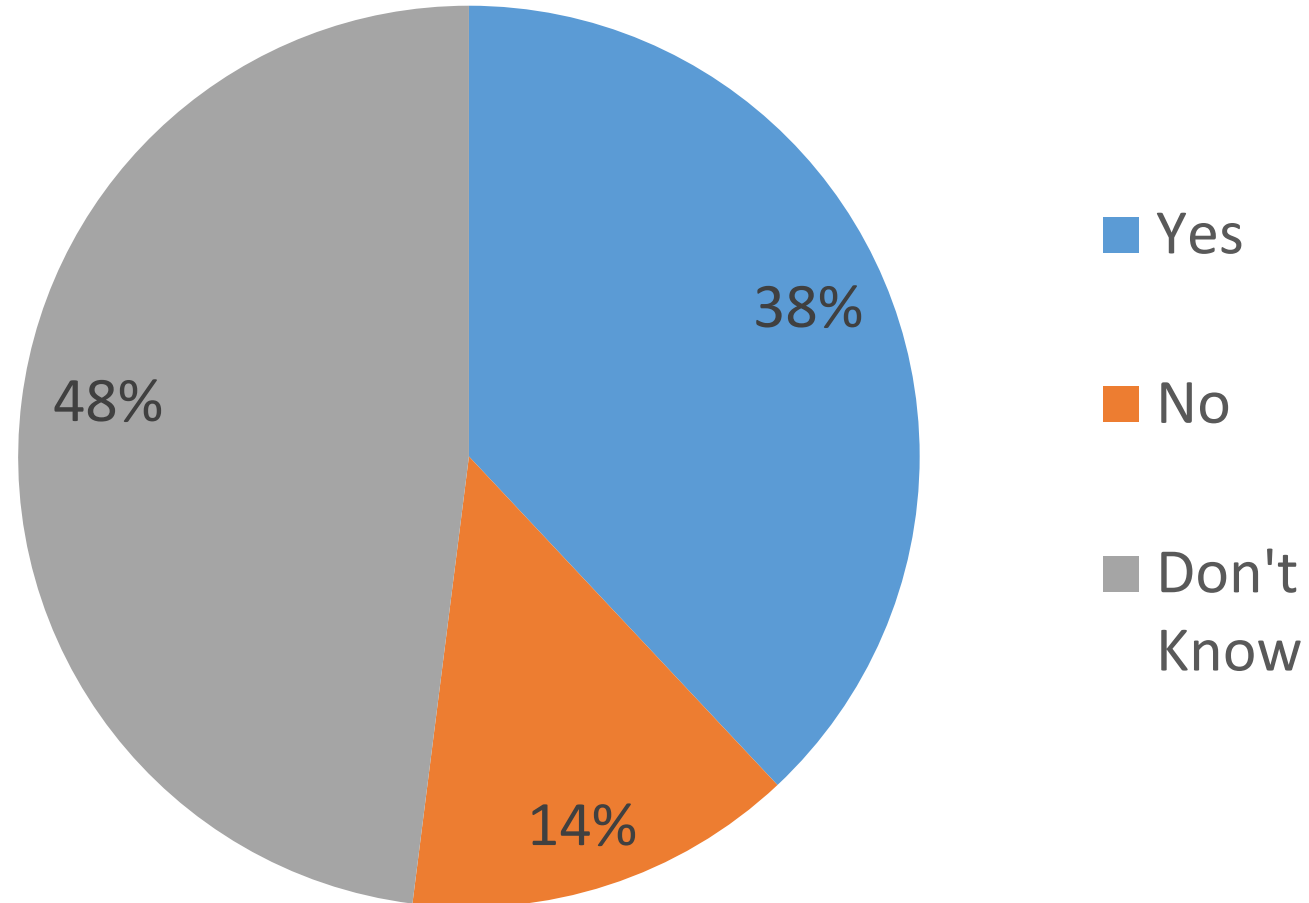

# Question 15: Who pays the cost? (Shipper, line, agent etc.)

# Question 16: Will your 'designated authority' allow any tolerance on weights?

# Question 17: Will penalties apply if the weight varies from the certificate?

# Question 18: If so, who pays the penalties?
