

Eventually, logistics will disrupt or will be disrupted...

the World's First Cross Supply Chain Orchestrator
(2008)

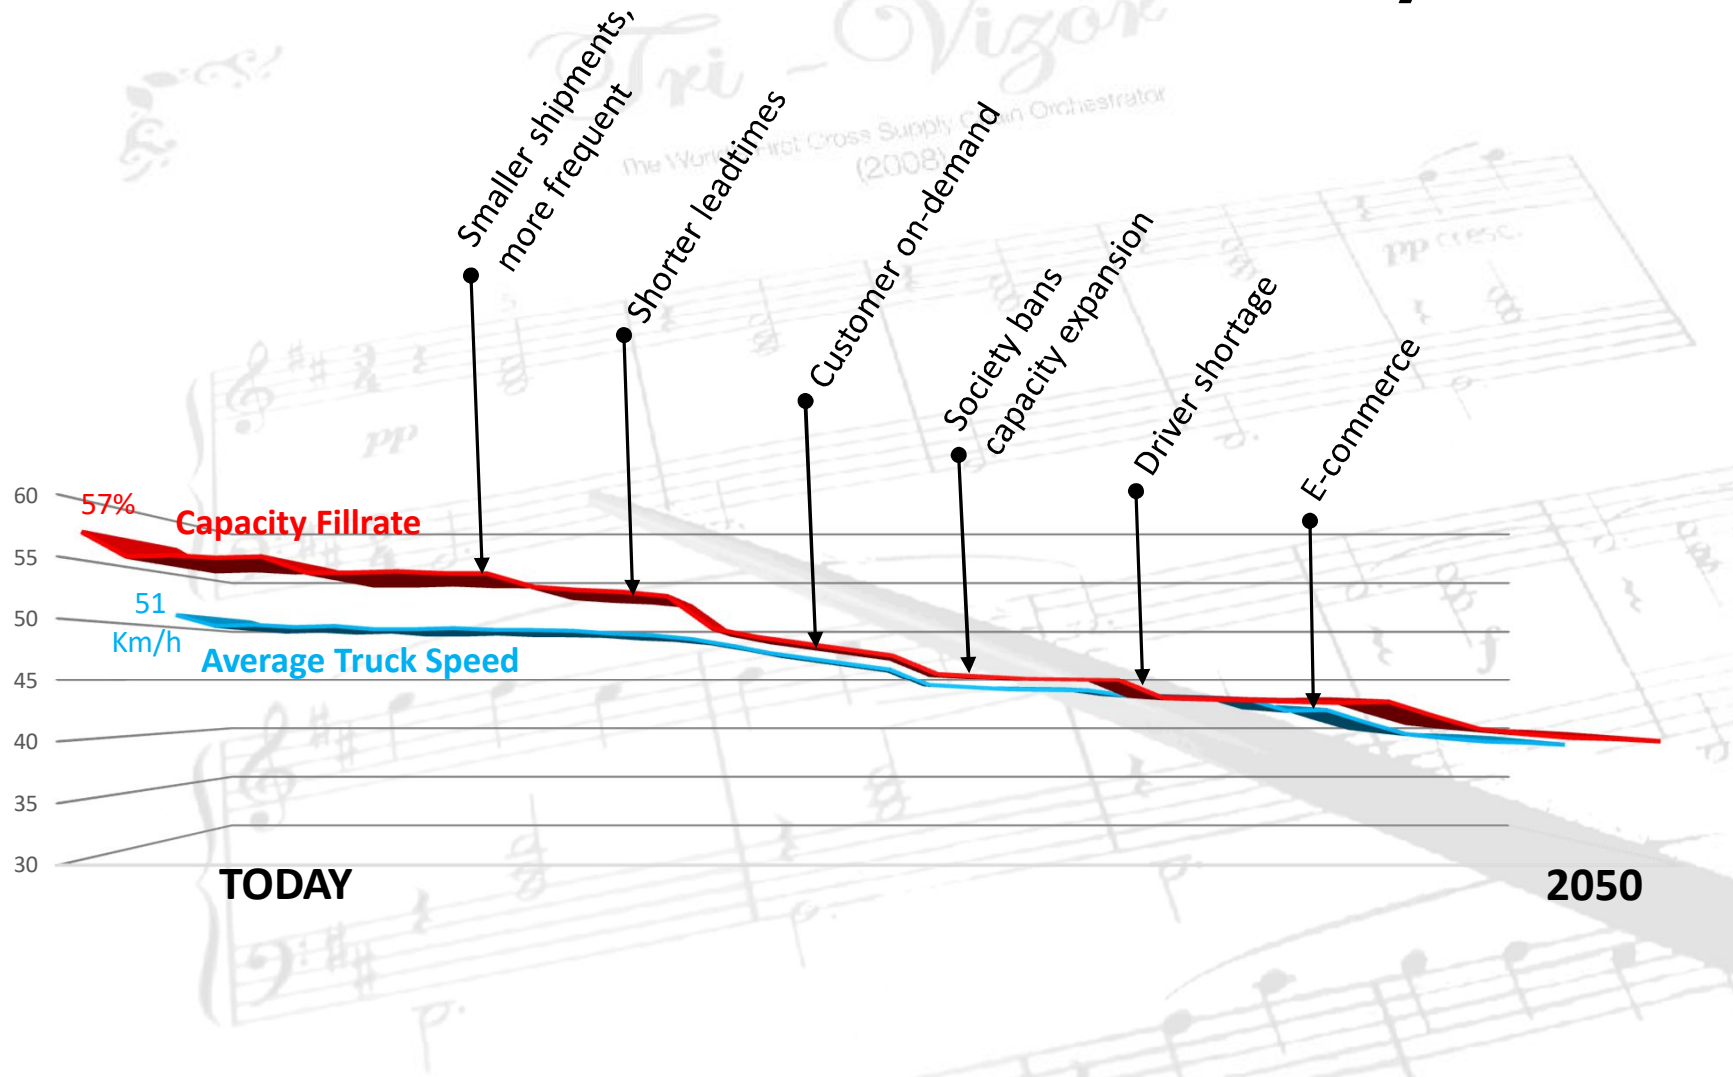

Alex Van Breedam

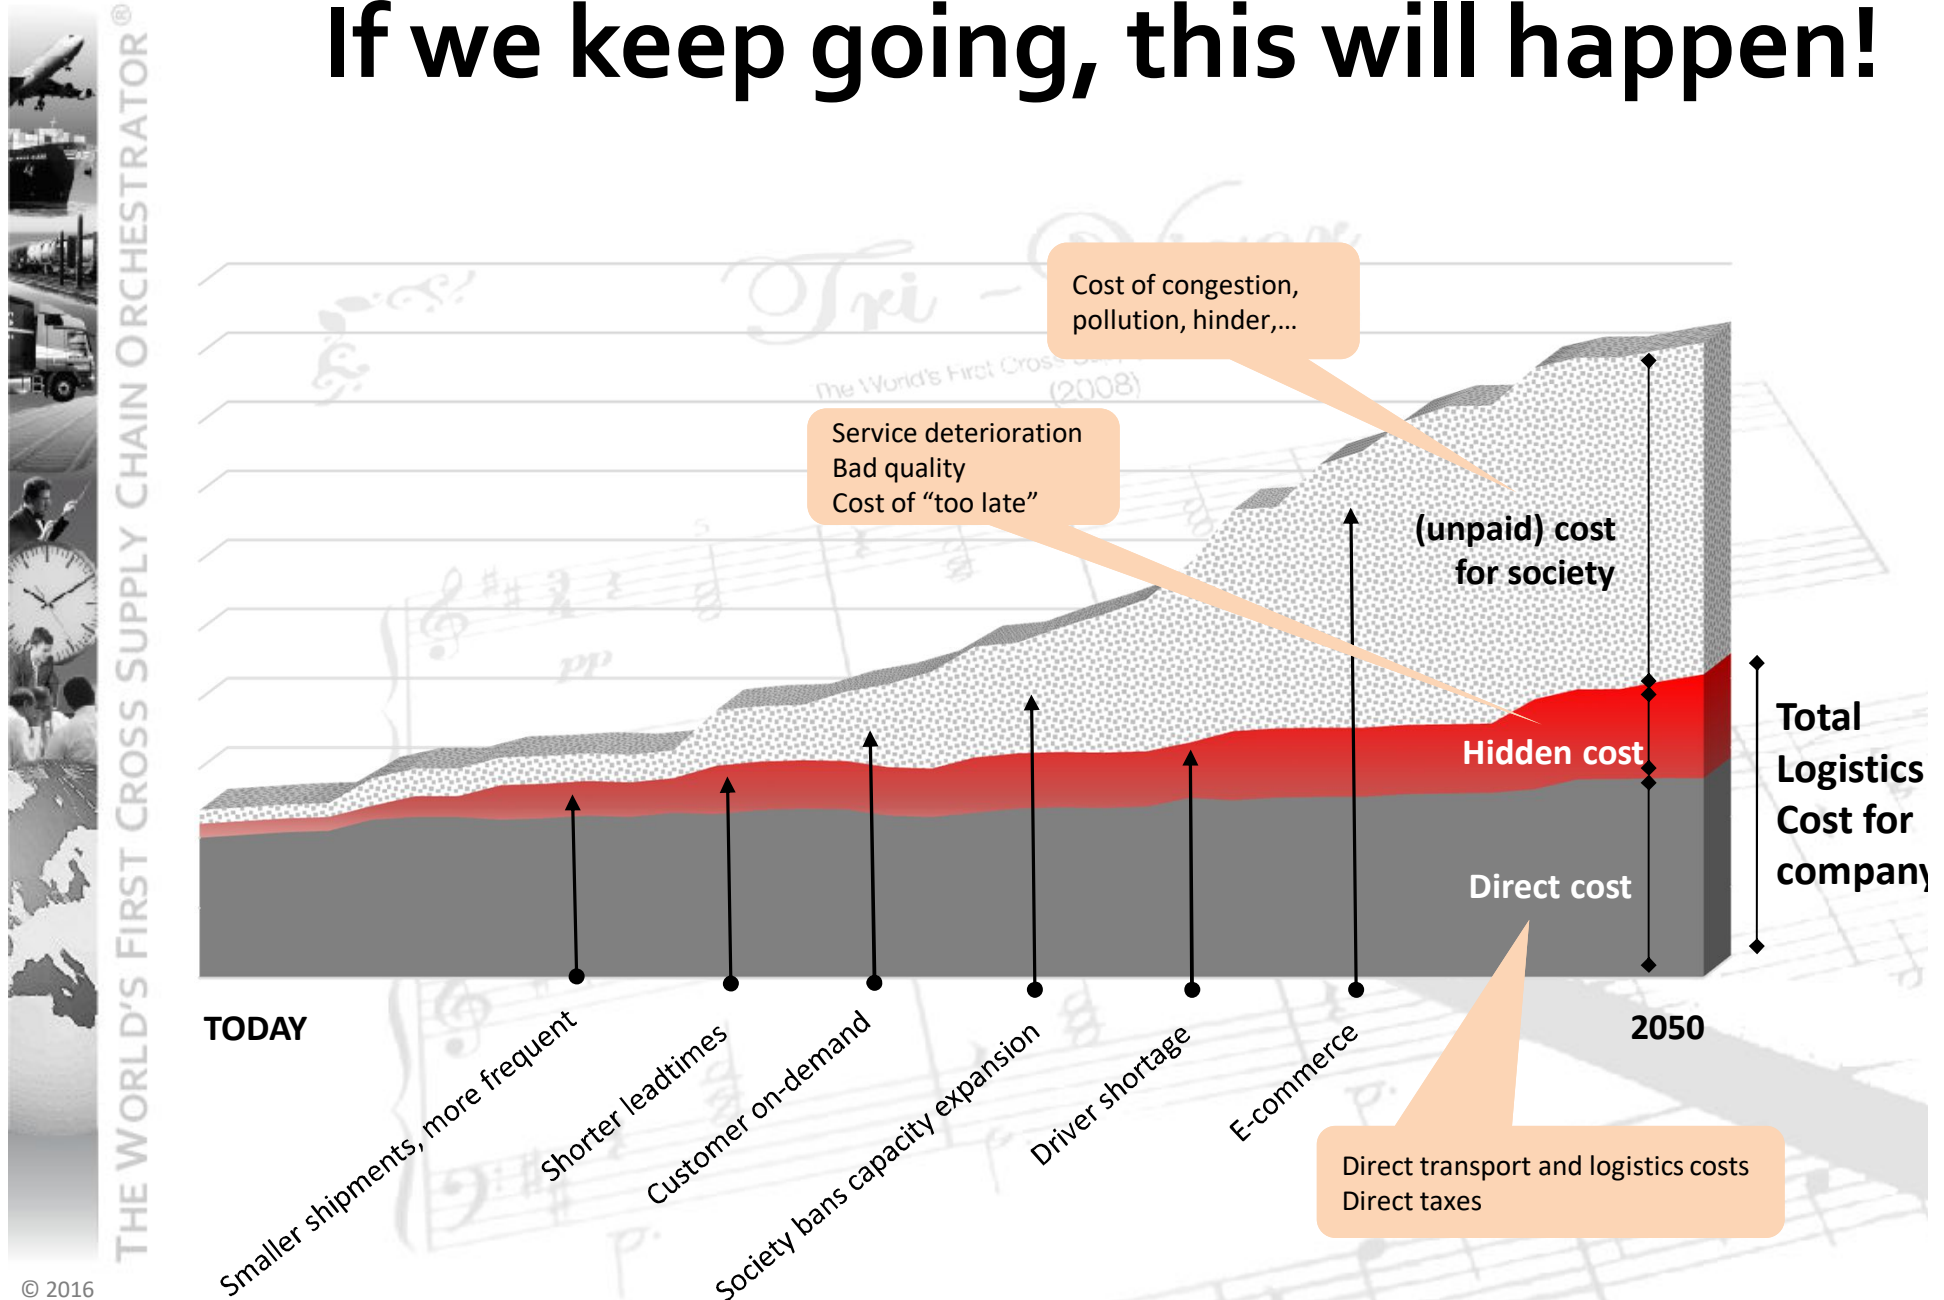

@alex_v_b

Why current business models will fail very soon

If we keep going, this will happen!

What will be the new business models?

Smart, sustainable and fair logistics, based on sharing capacity and resources

Bundling

Clustering

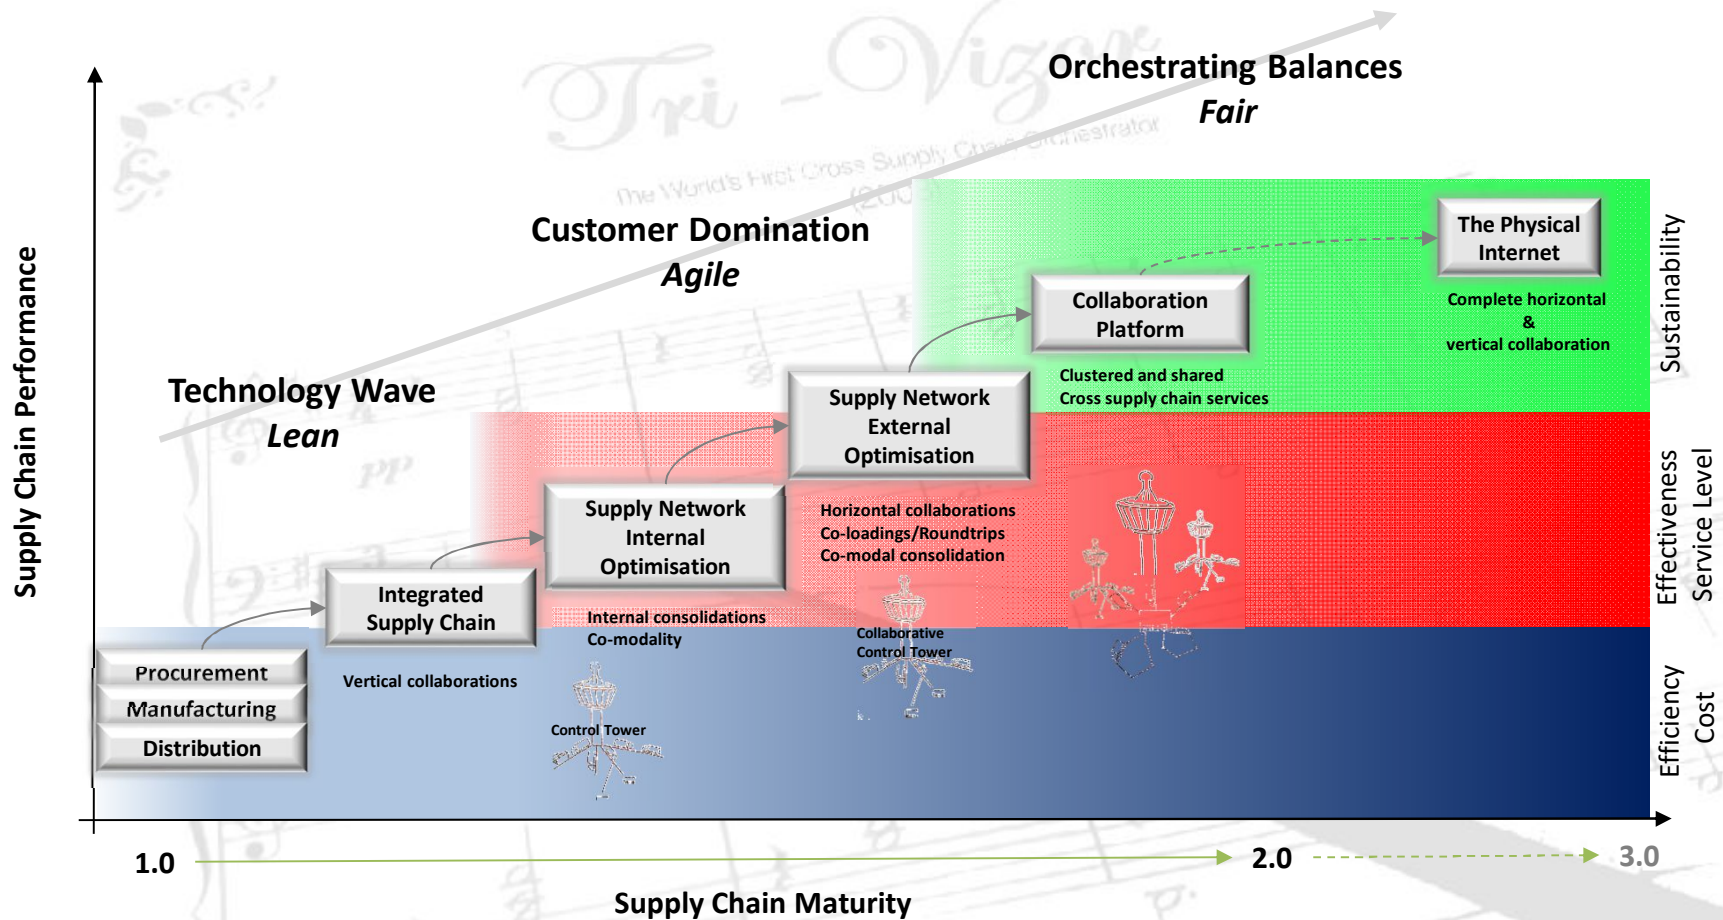

Pooling

Sharing

by means of horizontal collaborations and partnerships

How will logistics evolve?

The mental shift
